#### THE HUMANE SOCIETY IS DOING GOOD WORK

Several Cases Have Been Given Prompt Attention by the New Organization.

The first work done by the newly formed humane society, has been accomplished, with the result of two horses being put out of misery. Attention was called to the officers, several days ago, of a horse being down and unable to get up, that was lying near the railroad track just across the river. D. G. Buck, president of the society, immediately found the owner of the animal, who upon seeing that there was little hope for its recovery, put it out of misery. From all indications the horse had been hit by a train and left to die. The owner did not know that the horse was hurt, which accounts for the length of time which it was there, before its sufferings were ended.

The other case, was a little differ-

#### CARLTON HOTEL

Telegraph Ave. at Durant Street  
BERKELEY

Right at the main gateway of the University and in the social center of the town. Where one can have all the comforts of a first-class hotel with beautiful surroundings at the nominal cost of \$40 a month. Special rates to families and permanent. Only 35 minutes from San Francisco.

ent, though, for the horse that figures in it, was taken the best of care possible, but with little result. Last Friday night it was being driven down Mill avenue, and, when a little over a mile from town, became frightened and started to run, soon becoming unmanageable. The driver, an aged Mexican, was thrown from the buggy, and, although not severely hurt, was pretty well skinned up. The horse soon got rid of the buggy, but in some manner, at the same time, came in contact with a barbed wire fence. When it was extricated one leg was almost severed from the body, and a number of other severe wounds were much in evidence. It was promptly brought to town and doctored, since then it has been standing on three legs most of the time. Day before yesterday, it was seen that there was little chance for its recovery, so the matter was referred to the humane society, who after seeing the animal, passed the case to the town marshal. He in turn seeing that it was cared for in a way that ended its pain.

#### PHOTOGRAPHER HERE.

H. G. Lyman of Phoenix was here yesterday afternoon, looking into the possibilities of establishing a photograph gallery at this place. An offer has been made him in Phoenix, but he came over in the hope that there would be enough business to assure a permanent location. The branch studio will probably be used for quarters, at present at least, if he should make up his mind to come here.

#### ON SICK LIST.

Prof. J. L. Johnston singing instructor at the normal, is on the sick list. Although he is not in bed, his voice is in such a condition as to render it useless for singing, and nearly so for talking.

#### MOVED TO TOWN.

The new cement house in Gage addition which has been in the course of construction for some time is almost completed. Mrs. Longen, the owner, moved into it yesterday from the Still home west of town, where she has been living for the past two years.

#### EVANGELIST SECURED.

The Christian church has at last secured an Evangelist and the meetings are scheduled to commence next Sunday evening. They had one engaged several months ago and the meetings were to have started two weeks ago last Sunday night, but the man did not put in an appearance, consequently another had to be secured. W. L. Harris is the new evangelist and comes very well recommended. If nothing interferes with his arrival here, the meetings will begin next Sunday, services being conducted both morning and evening.

#### ROBBED HOUSE.

A house belonging to Jack Morton, living in the Hermosa tract south of town was robbed last Saturday morning. Although little was taken, the officers are after the culprit in the hopes that it may set an example for others of a like nature. Constable Estrada investigated, matters at the house, and is pretty sure he knows the man who did the deed, through a description given him by a Xanoli boy, who happened to see the man there. So far no arrests have been made, but it is thought the man will be caught today.

There is no better medicine made for colds than Chamberlain's Cough Remedy. It acts on nature's plan, relieves the lungs, opens the secretions, aids expectoration, and restores the system to a healthy condition. For sale by all druggists.

#### MAN WANTED.

A man wanted by the Phoenix officers, was supposed to be in this vicinity yesterday. The local constable followed up the clue and found that the man had left here about nine o'clock bound for Mesa. He telephoned to the officers of that place and it is thought the man will be captured there.

Do you know that more real danger lurks in a common cold than in any other of the minor ailments? The safe way is to take Chamberlain's Cough Remedy, a thoroughly reliable preparation, and rid yourself of the cold as quickly as possible. This remedy is for sale by all druggists.

#### IRON BEING UNLOADED.

The heavy structural iron to be used in the new national bank building has arrived, and the unloading was commenced yesterday.

**MUSIC ATTRACTS CHILDREN.**  
The carnival which is to be situated at Phoenix for the next week, came through here yesterday, letting every one know of its presence. The special cars were included in a freight train but above all the noise the train made,

the tunes of a piano were plainly recognized. Of course all the children who were out of school, immediately went to the depot, where the music could be better heard, and all remained until the last car had passed out of sight, on the road to Phoenix.

#### TO SPEND WEEK HERE.

F. R. Marsh, proprietor of the Casa Luna hotel is over from Phoenix to spend a week or ten days. The hotel is so full of guests just at present, and help was so much in need, that Mr. Marsh concluded he might as well remain here for a few days, and look after the management himself.

#### LEAVES ZERO WEATHER.

H. W. Newcomer of Cleveland, Ohio, is a visitor in Tempe. Mr. Newcomer is by no means a stranger here, having spent several winters here previously. A week ago this morning Mr. Newcomer was in New York on a business trip. The weather there was anything but delightful and a couple of days later when he reached his home in Cleveland and found the thermometer showing thirty-two below zero, thought of Tempe's sunny winter climate and the hotel that guarantees sunshine very naturally flitted through his mind. He packed up the same day he arrived at home and left that evening for Tempe arriving here Saturday evening. The weather encountered along the road he says was terrible. Nearly all trains were late and as he came through Benson, the residents of that place were out playing in a foot of snow and apparently enjoying the novelty. Mr. Newcomer will probably remain several weeks and may go on to California before returning east.

For a sore throat you will find Chamberlain's Liniment excellent. It allays the pain, removes the soreness, and soon restores the parts to a healthy condition. 25 and 50 cent bottles for sale by all druggists.

### MESA

Story of Attempt to Obtain Extension of Time on Payments Due Government from Valley Farmers.

Hon. D. P. Jones, representative-elect to the first legislature of Arizona, and also a member of the official board of Salt River Valley Water Reclamation Association, recently went to Washington, D. C., at the instance of the farmers of the Salt River valley, to ask that the payments for the construction of the Roosevelt dam be extended beyond the ten years contemplated when the estimated cost of the dam approximated only some three million dollars. The situation is so well understood by Mesa land owners who are signed up under the reclamation act that it is a waste of time to go into details. That Mr. Jones has not met with the success anticipated, is evidenced by the following telegram and answer. Mr. Jones telegraphed Dr. E. W. Wilbur of Mesa yesterday:

Washington, D. C., Feb. 26, 1912.  
To Dr. E. W. Wilbur,  
"Mesa, Arizona."  
"Newell unfavorable to extension. Wants graduated payments. No more money for project for irrigation committee today. Much interest in question. Senators and representatives willing to help to date as possible. Some short for action by this congress. Hayden all right. Orme and I are well. Publish."

"D. P. JONES."  
To which Dr. Wilbur sent the following reply:

"Say to Newell that graduated payment will not do; also that unless he gets busy and helps us to procure extension of time, people will demand of congress investigation of extravagance and useless expenditure of money on this project. Two agitators meetings since you left. Signatures to petition being solicited."  
"E. W. WILBUR."  
The public will await with interest further information as to the result of Mr. Jones' mission.

#### REMEMBERING PHILANTHROPIST

The Ladies' Relief society of the Maricopa stake did a very courteous and kindly act yesterday by sending a letter to Mrs. Emma E. Wells of Salt Lake, congratulating that lady upon her "twenty-first birthday." Mrs. Wells is one of the old time and well-loved workers in the relief society of Salt Lake, and is remembered by all the old timers of Mesa who formerly lived in the Utah capital. At its meeting the relief society appointed Malissa Hunsaker, Sophronia Stewart and Adeline Horne as a committee to send congratulations. This they did by mailing a letter to the good lady which will reach her on the 28th. This day, the twenty-ninth, is Mrs. Wells' natal day, and the close of this month marks her 21st birthday. In actual years she is 88 years of age.

#### TWO FUNERALS.

The funeral of Mrs. Ernest Hadlock occurred Sunday at 11 o'clock from the Christian church. Rev. W. S. Crockett preaching the sermon. A large crowd of relatives and friends were present.

The funeral of Geo. C. Dana occurred at 4 o'clock from the tabernacle. Mr. Dana was well known to many of the people of the community, and there was a very large attendance. He was laid to rest in the Mesa cemetery.

#### INVITATION DAY

A large number of post cards were sent out yesterday to friends in the east. This card contains a full page

### PIMPLES AND BLACK-HEADS DISAPPEAR

WHEN ZEMO AND ZEMO SOAP ARE USED

For 25c you can test the healing and cleansing powers of ZEMO and ZEMO SOAP. We offer a trial treatment consisting of a generous size of ZEMO a trial cake of ZEMO SOAP and a 32-page booklet. "How to Preserve the Skin"—all for 25c. This offer is made to introduce ZEMO into every home in this community. We are confident that after you have once used ZEMO and ZEMO SOAP you, like all others who have tested this treatment, will say that ZEMO and ZEMO SOAP are without doubt the best treatment for prompt relief and sure cure of all forms of skin and scalp diseases. Blisters, Pimples, Skin Spots, in fact, all facial blemishes on infants or adults disappear as if by magic when these clean, effective remedies are used. We want you to test the trial treatment of ZEMO at 25c—we know you'll thank us many times for this advice.

Every & Hulett Drug Store.

picture of the Mesa union high school and asks the recipient to check such subjects as he or she may be interested in relating to the Mesa section of the valley. The card was a happy idea and will no doubt result in much good advertising for this section.

#### THREE ARRESTS

Three arrests were made yesterday and Sunday, for violation of city ordinance. The first arrest was that of Ramon Garcia who had the distinction of being the first to spend a night in the steel cell after it was moved to the basement of the new building. Yesterday morning Garcia pleaded guilty of being too drunk to take care of himself and was fined seven dollars. Later, Mrs. Garcia paid the fine, less a half day put in on the streets by her husband. W. Stivers and Ramon Mendez were arrested for creating a disturbance and each got ten dollars or ten days in the new city jail.

#### MESA WEATHER.

Maximum temperature, 61.  
Minimum temperature, 28.  
Wind, northeast.  
Forecast—Fair.

#### VISITED CAMP CARNEY.

Messrs. J. Myers, R. M. Cosper, Thos. Frasier, foreman of the mine, and Mr. Jones who has been installing an air compressor at the cross-cut tunnel, went to the mine Sunday and spent the greater part of the day. Everything is running smoothly at the camp. The air compressor and power drills are working satisfactorily and a fine force of men are employed. The tunnel is now traveling toward the ore vein at the rate of from eight to ten feet per day. Mrs. Taylor is in charge of a well-planned boarding house. A recent arrival in camp is Mrs. Davidson, who came to join her husband, who is employed at the mine. She and Mrs. Taylor are the only ladies at the camp.

#### AMUSEMENTS

##### THE COLISEUM.

Three big vaudeville attractions with a new picture program is the promise of entertainment held out at the Coliseum this evening. The bill is one of the strongest of the season and the picture numbers are new and of special merit. Leslie & Leslie, singing and talking act; Mr. and Mrs. Monte Wilkes, champion rope and barbit manipulators; and Dorothy, comedy singer and talking specialty. "Ain't the Gravy Good?" completes the vaudeville line-up.

The show is a hummer and will be a strong card during Moose week.

##### THE EMPRESS.

The best picture show ever given in Phoenix, and this statement goes without a single reservation, was that at the Empress last evening. Four new reels and one that had scored such a hit the previous evening that it bore repetition, was the offering. The price of admission was reduced to 10 and 15 cents, and this fact helped to fill the house. Jack Stewart is a star in the illustrated songs and was generously applauded last evening by Dorothy, comedy singer and talking specialty. "Ain't the Gravy Good?" completes the vaudeville line-up.

The picture program will be entirely changed this evening, four new reels of over 4,000 feet being substituted. The Empress is by far the most comfortable playhouse in the city and will soon become the most popular of the picture shows.

#### "OUR GREAT NATIONAL UNIVERSITY."

Those who believe in unlimited arbitration treaties and universal peace and disarmament have entirely lost sight of the unique educational features of the navy. And they must not think that the same result could be obtained by omitting the military character and having merely a floating university. Just as there can be no patience without pain, or resignation without suffering, there can be no such patriotism or respect for authority as must exist to keep a republic alive, without a martial spirit. This ought to be too axiomatic to any student of history to need argument.

If the people of this country will only study the requirements of citizenship and see how perfectly the navy trains young men for it, there will be no question as to whether the country needs one or two new battle-ships a year. Familiarity with the subject will convince any one that nothing less than a battle-ship for each state in the Union will begin to satisfy the demands of the situation. Even then it would be possible to train only about 60,000 young men

at a time. There is no reason why these young men, who finish their course of enlistment when twenty-two or twenty-three years of age, should stay in the navy all their lives. The old rule of "squares" has gone out. We do not today need a man trained in the habit of the sea to the extent that he was needed in the days of the old "squares-riggers." A navy with a "capital ship" (that is, an all-big-gun ship, which was at first called a "dreadnought") for every state in the Union and the requisite number of auxiliaries would be the greatest educational institution that could be devised for the young men of the country. The traditions of the United States navy are a greater inspiration than those of any university in the world. No college graduate can feel toward his alma mater as the man who has been a blue-jacket or a marine feels about the service. An honorable discharge does not mean a knowledge of Latin and Greek as a diploma does, but it does mean (according to navy regulations) "fidelity, obedience, and ability," which very briefly describes a pretty high type of character.—Herbert L. Satterlee, in the February number of The North American Review.

Make a Republican Want Ad do the work for you—a "live wire" salesman on the job 24 hours a day.

### ST. JOSEPH VISITOR HERE TO GET WARM

D. E. Bartlett Predicts a Wonderful Future for Salt River Valley.

GLENDAL, Ariz., Feb. 26.—Mr. and Mrs. D. E. Bartlett of St. Joseph, Mo., were investigating the resources of the Glendale country Saturday, in company with W. H. Slaughter and expressed more than satisfaction with the fine alfalfa farms, a number of which they visited, spent most of the day here and took lunch at the Glendale hotel.

Mr. Bartlett has the management of the Bartlett Trust company, which connected with Bartlett Brothers Land and Loan company, is the largest farm loan business in the United States today; over \$63,000,000 have been placed on farm loans by this firm. When interviewed Mr. Bartlett said that he was not in the valley on business and did not intend to invest any money here, but is here simply to get warm. When questioned as to why he would not invest or loan money here Mr. Bartlett gave several reasons all of which seemed more like reasons why he should do business here.

Mr. Bartlett has been stopping at the Adams hotel for some time. Speaking of Phoenix he said, "This is the finest hotel I ever stopped in. I have enjoyed myself immensely here. Phoenix will be a large city in the near future, one of the largest in the southwest. If I were a young man with a little capital I would invest it in land in and around Phoenix. Phoenix needs a dressing up. She is still wearing the unkempt wild west appearance. When I first saw the Grand canal I thought it a beautiful sight but I soon found that the banks of the town ditch were a public dump within the city limits of Phoenix. Phoenix must certainly brush up," said Mr. Bartlett, "that is the one great thing she needs." W. H. Slaughter of this city was formerly associated with Mr. Bartlett in the loan business in the capacity of examiner for Kansas loans.

M. C. Merriam and Mrs. Fauber are Phoenix visitors today. Operations in grading Washington and First streets have begun. F. W. Akin has received a large shipment of glassware.

Mr. and Mrs. A. M. Fudge from

How to Make Better Cough Syrup than You Can Buy

A Family Supply, Saving \$2 and Fully Guaranteed.

A full pint of cough syrup—as much as you could buy for \$2.50—can easily be made at home. You will find nothing that takes hold of an obstinate cough more quickly, usually ending it inside of 24 hours. Excellent, too, for croup, whooping cough, sore lungs, asthma, hoarseness and other throat troubles.

Mix one pint of granulated sugar with 2 pints of warm water, and stir for 2 minutes. Put 2½ ounces of Pinex (ditty cents' worth) in a pint bottle, then add the Sugar Syrup. It keeps perfectly. Take tea-spoonful every one, two or three times.

This is just laxative enough to help cure a cough. Also stimulates the appetite, which is usually upset by a cough. The taste is pleasant.

The effect of pine and sugar syrup on the inflamed membranes is well known. Pinex is the most valuable concentrated compound of Norway white pine extract, rich in gualaid and all the natural healing pine elements. Other preparations will not work in this formula.

The Pinex and Sugar Syrup recipe is now used by thousands of housewives throughout the United States and Canada. The plan has been initiated, but the old successful formula has never been equaled.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

A Skin of Beauty is a Joy Forever

DR. T. Felix Gauraud's Oriental Cream or Magical Beautifier. Removes Tan, Freckles, Blackheads, Scurf, Rash, and Skin Diseases. Makes the skin soft, smooth, and beautiful. It is the best of all skin preparations. It is so simple to use that even a child can use it. It is so effective that it will remove the most stubborn skin blemishes. It is so pleasant that it will be used every day. It is so economical that it will last for months. It is so reliable that it will be used by all who care for their skin.

Phoenix are visiting Mr. and Mrs. M. S. White.
